

PROFESSIONAL SUMMARY

Self-taught Frontend and Mobile Developer with 5+ years of experience building responsive web applications and cross-platform mobile apps. Specialized in React Native (Expo) and Next.js with strong expertise in Supabase backend integration. Proven track record of delivering full-stack mobile solutions from concept to deployment, including real-time features, payment systems, and multi-language support. Open to remote, on-site, or hybrid opportunities.

TECHNICAL SKILLS

Mobile Development	React Native, Expo, React Navigation, Expo Router
Frontend Development	React, Next.js, HTML5, CSS3, JavaScript (ES6+), TypeScript
Web Frameworks	Next.js (SSR, SSG, API Routes), React.js
Styling & UI	NativeWind, TailwindCSS, Responsive Design, RTL Support (Arabic/English)
State Management	Zustand, React Query, Context API
Backend & Database	Supabase, PostgreSQL, REST APIs, Real-time Subscriptions
Form & Validation	React Hook Form, Zod
Storage & Cloud	Idrive E2, Cloud Storage Solutions
Payment Integration	Moyasar Payment Gateway
Tools & Workflow	Git, GitHub, VS Code, npm/yarn
Authentication	OTP Verification, Session Management
Languages	Arabic (Native), English (Intermediate)

PROFESSIONAL EXPERIENCE

Freelance Mobile DeveloperBytransform - Fitness Matching PlatformAug 2025 - Present

- Developed dual mobile applications for trainees and trainers with an admin dashboard using React Native and Expo
- Implemented secure user authentication and authorization system with Supabase
- Built responsive UI components with full RTL support for Arabic and English languages
- Integrated subscription-based payment system using third-party payment gateway
- Utilized TypeScript for type-safe code and reduced runtime errors by 40%
- *Technologies: React Native, Expo, TypeScript, Supabase, Zustand, React Hook Form, Zod*

Freelance Mobile DeveloperTchakim - C2C MarketplaceJun 2024 - Present

- Built a full-featured Arabic-first e-commerce marketplace with RTL support enabling users to buy and sell products
- Developed real-time chat system between buyers and sellers with offline caching and "last seen" tracking
- Created multi-tier subscription system (Free/Basic/Premium) with database-enforced product limits
- Implemented advanced product management with multi-image uploads, category hierarchies, and location-based filtering
- Optimized app performance using memoization, skeleton loaders, debounced search, and image/audio caching
- Delivered 5 major version updates incorporating user feedback and new features
- *Technologies: React Native, Expo, TypeScript, Supabase, Zustand, React Query, NativeWind, Idrive E2, Expo Router*

Frontend DeveloperPurple CloudFeb 2024 - Feb 2025 **Leago - Car Rental Application**

- Developed a comprehensive car rental mobile application with React Native and Expo
- Built two separate dashboards: one for administrators and one for vendors/branches
- Integrated Moyasar payment gateway for secure online transactions
- Implemented Supabase as backend and database solution for real-time data synchronization
- Created responsive interfaces using TypeScript ensuring type safety across the application
- Successfully deployed 5 major versions with continuous improvements based on client feedback

- *Technologies: React Native, Expo, TypeScript, Supabase, Moyasar Gateway, PostgreSQL*

Self-Taught DeveloperIndependent Learning2020 - 2024

- Completed extensive self-education through online courses, YouTube tutorials, and hands-on projects
- Mastered frontend web development including HTML, CSS, JavaScript, and React
- Built multiple personal projects to practice and demonstrate full-stack development skills
- Transitioned from web development to mobile app development with React Native
- Developed strong problem-solving skills through independent learning and debugging

EDUCATION

Self-Taught Software Developer2020 - PresentIndependent Learning

- Comprehensive self-education in web and mobile development through online platforms, documentation, and practical projects
- Focused curriculum: React Native, Expo, Next.js, TypeScript, Supabase, and modern frontend technologies
- Continuous learning approach with emphasis on real-world application development

High School EducationCompletedChad

KEY ACHIEVEMENTS

- Successfully delivered 3 production-ready mobile applications serving real users
- Developed and maintained 10+ major version releases across different projects
- Specialized in building Arabic-first applications with full RTL support
- Proven expertise in integrating complex features: real-time chat, payment systems, multi-tier subscriptions
- Strong focus on performance optimization and user experience
